

Key Legend:

- Application Boundary
- Detailed Phase
- Outline Phase
- Proposed Active Travel Route
- Upgraded Bridleway
- Existing Footpath
- New Bridleway
- Proposed Permissive Route
- New Soft Surface Route
- Permissive New Soft Surface Route

NOTE: South Drive surface as existing.

NOTE: The College redevelopment will be undertaken in phases and the sequencing may vary. The existing PROWs through the site will remain open throughout the Construction phase and will only be converted to permissive routes once the legal process has been completed. There will be some circumstances where works are to be undertaken on the existing PROWs. In this scenario, local diversions may be provided and will need to be agreed via the appropriate TTRO process. Details of any diversions will be included in the Construction Management Plan for phases where PROWs are affected and the CMP will need to be agreed with the Local Authority by way of a condition discharge application.
